Fun game expecially if you know about Polandball. It's like a budget VVVVV or how many ♥♥♥♥ing V's there are. Not as good but a fifth of the price.. The story is fantastic, the art is great, the music is great. I check the page every couple weeks hoping there's more to play because I enjoyed the first section so much.. Nothing what you'd expect to be a modern version of the old asteroid like games(not referring to the original asteroid game though). Lack of VOLUME CONTROL ruins the game. Having to hear the music blasting full volume constantly is lazy software development.. https://youtu.be/6E5Mm_8z-vY

The tongue-in-cheek superhero story setup pushes to hard without earning the player's interest, while the gameplay is simple Shoot-em-up scrolling with limited actions resulting in too similar levels.

Although a old game I still enjoy playing it.. \u2665\u2665\u2665\u2665\u2665\u2665\u2665t. Its short, and i mean SHORT ... like 4 minutes.

Even 80 cent is too much imo.

3 Achievments, 2 easy ones - one "random" last achievment is entierly random if you get it or not.

There is nothing to do, all you do is click a few times and you are done. Thats all there is, get it only if you want to go random on the last achiev and on asale.. Absolutely love it!
I played it about 4-3 Years ago and it's still a Brilliant Game..
It sucks how Multiplayer is Down though..
And that there's no Frontlines: Fuel Of War 2..
But Still! A Fantastic Game!
10/10
. Cross between plain jigsaws and Plants v Zombies. Solve jigsaw to kill zombies. Kill zombies to allow time to solve jigsaw!. 3 patches already and the game is still unplayable , customers and endday report stop appearing after few days (weeks) of gameplay. This is crucial bug that basically makes the game unplayable after load, so have to give thumbs down.. In few words: A Challenging tower defence. I was stuck in a level for some time, stopped playing for a while but now found this game again. With some fresh thinking, was able to beat the level and felt like a king. :) Nice "retro" graphics, lots of stuff to buid and to blow up, challenging levels. If you like to optimize, this is your game. Well worth the money, only thing missing is dlc or sequel.. I like it.
Just buy it if you found 5 € somewhere.. Fun, if short, horizontal shmup. Reminded me a little of Raptor Call of the Shadows with the weapon and ship upgrades. Multiplayer would probably be a blast.. Early access for Atom Universe, at this time not a good game, if you could call it a game. Extremely buggy. Crashing from public hub. Choppy sound, laggy. Need loading screens with loading meters instead of Black screens. Didn't not look like there was anything for Free players to do except hang out in public hubs. Needs a private space for free players. Needs to be some activities for Free players also. The sound was choppy and lagging in the menu area. The avatars choices were rather limited.

Atom Universe is a Free-to-Play social Virtual World: a theme park featuring fun people and fun things: plenty of games, rides and amusements, as well as advanced social interactions.

I play Secondlife, so i would rather play Secondlife than this game, from what i have seen so far.
Secondlife is all that and more. It is Free to Play, they make money on buying land, currency, and subscriptions.
